

Open access: IOP Publishing and the wider landscape

- Date:** Wednesday 22nd July
- Time:** 2.00 p.m.
- Venue:** Hall 2, Maritim Hotel & Internationales Congress Center Dresden
- Speaker:** Carly Whittle, Associate Publisher, IOP Publishing
- Duration:** 20 minutes (with 10 minutes for your questions/discussion)

Following a brief introduction to the Institute of Physics, IOP Publishing and the IOP biosciences portfolio, this talk will provide an overview of the current open access (OA) models used throughout the publishing industry and their benefits to researchers both as authors and readers. It will then introduce some of the schemes which are happening across Europe in relation to open access publication, funding and offsetting. Finally there will be an overview of how permissions and copyright apply to open access publishing, and an opportunity for delegates to ask any questions they have about OA or publishing in general.

Who should attend?

The talk will be of interest to a broad spectrum of researchers from PhD students to faculty members working in biophysical science or to anyone who would like to know more about open access publishing.
